To date several meetings were held to gather public input, police staff input as well as department head input regarding what attributes and skills people would like to see in the new Police Chief. 45 applications were received and the top 5-6 candidates will be invited to participate in an Assessment Center that will take place at the end of this month. Mr. Lindsay thanked the community for their interest and input.

- b) Town Attorney
 - c) Town Clerk
 - d) Other Staff
 - Waste Services Contract Negotiation Update
- Presenter:** Tim Simpson, Public Works Director

Mr. Simpson provided an update regarding the waste services contract negotiations. Effective July 1, 2017 the new waste services provider will be All Star. Additional information will be provided to council at a future meeting.

- 2018 Main Street Conference
Presenter: Kaitlin Russo, Downtown Development Coordinator

Ms. Russo was happy to announce that the 2018 Main Street Conference has been awarded to Clayton. This will be a wonderful opportunity to show off our downtown area for three days during March 2018. There will be approximately 500-600 attendees that will participate. This conference was also held in Clayton in 2012 and has grown significantly since that time. Council stated they were very excited about this opportunity for the town.

13 OTHER BUSINESS

a) Informal Discussion & Public Comment

Andria Merritt was present representing a group of citizens who would like to see the allowance of backyard chickens/hens. She shared information and provided a Power Point presentation. She shared suggested specific recommendations to include the following; prohibiting the allowance of roosters, allowing chickens/hens in both side and back yards, allowing chickens/hens without need of permit, limiting the number of chickens/hens per property and the allowance of larger flocks for community gardens. It was stated should a HOA that did not allow chickens/hens would trump a town ordinance. It was also requested that the unintentional prohibiting of chickens/hens in zoning districts where just one accessory building is allowed be avoided.

Ms. Merritt stated most towns allow backyard chickens/hens. She further stated she did not feel there would be a problem with chickens/hens creating a nuisance issue if there were a limit on the number of chickens/hens allowed. She addressed noise level being minimal from chickens/hens and further addressed the odor factor. As is with any other animal, if the property is maintained properly, odor would not be an issue.

There was discussion regarding concern and folks not following the rules and the need for hefty fines to be in place. There was mention of concern regarding the small number of folks in support of this request. Council directed staff to research this issue and return to council with additional details and recommendations.

The neighborhood meeting began promptly at 6:00 pm. Jerry & Jan Allen at 217 Corbett Road were the first to arrive. They asked how the Town would develop the property. I replied at this time the Town had no plans to develop the property. They expressed that if the property were to be developed as a park that would be nice. They did have some concern that if the Town property was annexed that their property would also be annexed or that if the ETJ was expanded their property would be annexed. I assured Mr. & Mrs. Allen that it is not the intent of the Town to annex their property.

Mr. Ricky Blackmon at 220 Short Johnson Road asked how the property would be developed. As stated previously I replied the Town at this time had no plans to develop the property. Mr. Blackmon's property joins the Town property, he questioned that when the property is developed if there would be a buffer between his property and the Town property. I stated there would be a buffer between properties zoned O-I Office & Institutional and R-E Residential Estates.

Mr. Duke Hockday at 2117 Amelia Church Road also inquired as to what plans the Town had for the property. I replied that the Town had no plans to develop the property at this time. He stated that the property would be a good location for a new fire station.

The Town Council of the Town of Clayton hereby states:

the above referenced zoning amendment is reasonable and in the public interest.

- (b) **O-1 | Office-Institutional.** The O-1 district is intended to permit offices, institutions, and associated administrative, executive, professional and research uses in new and existing structures and limited retail uses. Such offices and ~~instructional-user should be institutional uses are generally~~ located along ~~or proximate to~~ major roadways, ~~or adjacent to commercial uses to-and may~~ act as a buffer between such ~~roadways-areas~~ and residential uses.
- (c) **B-1 | Central-Business.** The B-1 district is intended to foster a vibrant, safe, ~~central business district and~~ town center by encouraging ~~dense~~ residential development while retaining and further developing a broad range of commercial, ~~retail, service,~~ office, institutional, public, cultural, and entertainment uses and activities. The district is intended to define and promote the town center as a desirable place to live, work, ~~shop,~~ and recreate.
- (d) **B-2 | Neighborhood-Business.** The B-2 district provides opportunities for small-scale commercial uses offering primarily convenience shopping and services for adjacent residential areas. Proximity to residences requires that commercial operations are low intensity, unobtrusive, and conducted at a scale and density compatible with the surrounding neighborhood. There is a relatively low demand on public services, transportation, and utilities.
- (e) **B-3 | Highway-Business.** The B-3 district provides ~~locations-of opportunities for~~ offices, service uses, and businesses retailing durable and convenience goods for the community as a whole. Located on major and minor thoroughfares, ~~and, therefore, are- this district is~~ accessible to and serves the entire community. Site design and buffering mitigate impacts of traffic, operations, and scale on adjacent businesses and residential neighborhoods.
- (f) **I-1 | Industrial-Light.** The I-1 district fosters the retention and growth of employment opportunities by providing areas where a broad range of industrial uses may locate and where options for complementary uses exist. Industries should be operated in a relatively clean and quiet manner, and should not be obnoxious to nearby residential or business districts, warehousing and wholesaling activities, and research facilities. The regulations of this district are intended to prohibit the use of land for industries that by their nature may create ~~some~~ very minor nuisance to surrounding properties.
- (g) **I-2 | Industrial-Heavy.** The I-2 district fosters the retention and growth of employment opportunities by providing areas where a broad range of industrial uses may locate and where options for complementary uses exist. ~~Indented-Intended~~ for heavy industries that, by their nature, may create some nuisance, and which are not properly associated with or are compatible with nearby residential or business districts, warehousing and wholesaling activities, and research facilities.
- (h) **PF | Public Facilities.** The PF district is established to provide a coordinated land planning approach to the sale, rent, lease, purchase, management, or alteration of publicly owned or operated lands. Notwithstanding those public uses permitted elsewhere in this Code, the PF district is primarily intended for, although not limited to, public parks and recreation areas, public buildings and facilities, and other capital improvements of a significant nature. (Ord. 2015-09-03, adopted 09/28/2015)

(3) **Planned Development Districts**

- (a) **PD-R | Planned Development-Residential.** The PD-R district provides opportunities for master-planned residential communities containing a mix of housing types, including associated amenities with appropriate perimeter buffering and open space. This district is primarily intended for large-scale residential projects that require either additional flexibility not available in a residential district or greater scrutiny by the Town due to their scale.
- (b) **PD-C | Planned Development-Commercial.** The PD-C district is intended to enhance the design of a commercial development by allowing for additional flexibility not available in the nonresidential districts. The district allows for innovations and special features in site development, including the location and type of structures, the conservation of natural features, the conservation of energy, and the efficient use of open space.
- (c) **PD-I | Planned Development-Industrial.** The PD-I district is intended to provide a means of achieving unified industrial complexes of high quality to promote amenities beyond those expected under conventional techniques, to achieve greater flexibility in design, to encourage well-planned industrial developments that provide for community needs, to provide for appropriate use of land which is significantly unique in its physical characteristics, location or other circumstances to warrant special methods of development, and to allow the expansion of existing industrial areas while safeguarding and maintaining the integrity of surrounding uses, especially those of a residential nature.
- (d) **PD-MU | Planned Development-Mixed Use.** The PD-MU district is intended to provide coordinated mixed use developments which include light industrial, commercial, office, educational, civic, institutional, residential and service uses within a planned development with appropriate perimeter buffering and open space. The variety of land uses available in this district allows flexibility to respond to market demands and the needs of tenants, which provides for a variety of physically and functionally integrated land uses.

(C) **SPECIAL USE DISTRICTS**

- (1) Pursuant to G.S. § 160A-382, the Town Council may establish by ordinance various special use districts upon request by or on behalf of all owners. Parallel special use districts shall be designated by adding "-SUD" to the corresponding general use district.
- (2) All zoning regulations that apply to the general use district are the minimum within the corresponding special use district.
- (3) A special use district may provide for greater but not lesser setbacks than those applicable to the corresponding general use district, and may limit the number of uses.
- (4) Under each special use district, all uses must be approved through the issuance of a special use permit granted by the Town Council in accordance with § 155.711. However, a special use permit is not required as a prerequisite to establish a special use district, since the district itself may be conditioned and established first and then developed much later. However, a special use permit may be submitted in tandem petition for the special use

district, either by preference of the applicant or upon request by the Town Council or Planning Director, if either finds that such permit is necessary in order to consider an application for a special use district.

- (5) If for any reason a condition imposed pursuant to these regulations is found to be illegal or invalid, or if the applicant should fail to accept any condition, it is the intent of this chapter that the authorization of such special use ~~permit-district or special use permit within that district~~ shall be null and void and of no effect and that proceedings be instituted to rezone the property to its previous zoning classification.

(C) **OVERLAY DISTRICTS**

(1) **Thoroughfare Overlay District (TOD)**

The Thoroughfare Overlay District is established for the purpose of maintaining a safe, efficient, and functional development pattern adjacent to major thoroughfares, while maintaining an aesthetic streetscape environment. It is recognized that an enhanced development quality in areas of high visibility promotes economic development and stability in the entire community. The standards established in § 155.204(A) shall be applied to properties which adjoin major thoroughfares, as designated on the Town's Overlay Zoning Map.

(2) **Watershed Protection Overlay (WPO)**

- (a) The Watershed Protection Overlay (WPO) is hereby established as a district that overlays the designated water supply watershed. The designated water supply watershed under this district is defined and established by the overlay district "Watershed Protection Overlay" on the zoning map. Land use and development within the WPO must comply with all the requirements of both the underlying zoning district and the watershed overlay.
- (b) The designated water supply watershed within the Town is designated by the state as a Class IV watershed protected area (WS-IV PA) and is referred to as the Neuse River (Smithfield) watershed within the Neuse River basin. Only new development activities that require an erosion/sedimentation control plan under state law or approved local government program are required to meet the provisions of this program. See § 155.501 for watershed protection standards.

(3) **Scenic Highway Overlay (SHO)**

The Scenic Highway Overlay is established for the purpose of protecting the visual qualities of the scenic US Highway 70 West corridor, as further described in this Article, specifically in §155.204.

(4) **Downtown Overlay District (DOD)**

The Downtown Overlay District is established for the purpose of fostering the economic vitality of the area within the district's boundaries, as well as the aesthetics and character of the district as further described in this Article, specifically in §155.204.

(C) **INTERPRETATION OF DISTRICT BOUNDARIES**

(3) **Defined**

~~District boundaries as are shown upon the Official Zoning Map of the Town as set forth in § 155.104, and as adopted by Town Council. The provisions of this chapter are hereby established and declared to be in effect upon all land included within the boundaries as shown on the map.~~

(4) **Rules for Interpretation**

- (a) ~~The Board of Adjustment is authorized to interpret the Official Zoning Map and act upon disputed questions of lot lines or district boundary lines and similar questions. If such questions arise in the context of an appeal from a decision of the Planning Director, they shall be handled as provided in § 155.717.~~
- (b) ~~An application for an Official Zoning Map interpretation shall be submitted to the Board of Adjustment by filing a copy of the application with the Planning Director. The application shall contain sufficient information to enable the Board of Adjustment to make the necessary interpretation.~~
- (c) ~~Where uncertainty exists as to the boundaries of any district shown on the Official Zoning Map, the following rules shall apply:~~
 - 1. ~~Boundaries indicated as approximately following the centerlines of streets, alleys, highways, streams or railroads shall be construed to follow such centerlines.~~
 - 2. ~~Boundaries indicated as approximately following lot lines, Town limits or extraterritorial jurisdiction boundary lines, shall be construed as following such lines, limits or boundaries; and~~
 - 3. ~~Boundaries indicated as following shorelines shall be construed to follow such shorelines, and in the event of change in the shoreline shall be construed as following such changed shorelines.~~
 - 4. ~~Where a district boundary divides a lot or where distances are not specifically indicated on the zoning map, the boundary shall be determined by measurement, using the scale of the zoning map.~~
 - 5. ~~Where any street or alley is hereafter officially vacated or abandoned, the regulations applicable to each parcel of abutting property shall apply to that portion of such street or alley added thereto by virtue of such vacation or abandonment.~~

§ 155.202 LAND USE REGULATIONS

HOUSING TYPES

Definitions

The following housing types are established to provide a common terminology for housing in the Town. All drawings are for illustrative purposes only.

Single-Family Detached A detached dwelling unit located on a single lot with private yards on all four sides	  
Zero-Lot-Line House A detached dwelling unit located on a single lot with private yards on three sides. The unit has a single side yard on one side comprising the equivalent of two side yards of a single-family detached house.	  
Alley-Loaded House A detached dwelling unit located on a single lot with private yards on all four sides; however, the house is set closer to the street than a single-family detached house.	  
Two-Family House Two attached dwelling units in a single structure on a single lot (often called a duplex). The two units can be located on separate floors or side-by-side.	  
Townhouse Two or more attached dwelling units located on separately owned lots or on a single lot where the units are lined up in a row and share side walls; individual units can be mixed vertically.	  

Apartment Three or more attached dwelling units in a single structure on a single lot. An apartment can vary in height from two to five stories, individual units can be mixed vertically.	
Upper-Story Residential A dwelling unit located on a floor above a nonresidential use.	

(A) **USE REGULATIONS TABLE**

The use regulations table is subject to the explanation as set forth below.

(1) **Key to Types of Use**

- (a) **Permitted.** A "P" indicates that a use is permitted in the respective district subject to the specific use standards in §§ 155.300 through [155.307155.311](#). Such uses are also subject to all other applicable requirements of this chapter.
- (b) **Conditional Use Review.** A "C" indicates a use that may be permitted in the respective general use district only where approved by the Board of Adjustment in accordance with § 155.710. Conditional uses are subject to all other applicable requirements of this chapter, including the specific use standards contained in §§ 155.300 through [155.307155.311](#), except where such use standards are expressly modified by the Board of Adjustment as part of the conditional use approval.
- (c) **Special Use Review.** An "S" indicates a use that may be permitted in the respective general use district only where approved by the Town Council in accordance with § 155.711. Special uses are subject to all other applicable requirements of this chapter, including the specific use standards contained in §§ 155.300 through [155.307155.311](#), except where such use standards are expressly modified by the Town Council as part of the special use approval.
- (d) **Specific Use Section.** The "Specific Use Section" column on the table is a cross-reference to any specific use standard listed in §§ 155.300 through [155.307155.311](#). Where no cross-reference is shown, no additional use standard shall apply.
- (e) **Uses Not Permitted.** A blank cell in the use table indicates that a use is not permitted in the respective district. [Except as pursuant to §155.110 and §155.300, the following uses are entirely prohibited within the jurisdiction of the Town, although such enumeration shall not necessarily be deemed exclusive or all-inclusive:](#)

§ 155.300 USE INTERPRETATION

(A) USES

THE LIST OF USES INCLUDED IN THE USE REGULATIONS TABLE (TABLE 2-1 ~~IN~~ §155.202(B)) AND DEFINED IN THIS SUBSECTION IS INTENDED TO CLASSIFY USES ON THE BASIS OF COMMON FUNCTIONAL CHARACTERISTICS (ACTIVITY, TYPE OF CUSTOMERS, GOODS OR SERVICES) AND LAND USE COMPATIBILITY. OTHER USES NOT SPECIFICALLY LISTED IN THE USE TABLE, BUT EXHIBITING SIMILAR CHARACTERISTICS TO A LISTED USE, SHALL BE SO CLASSIFIED BY THE INTERPRETATION OF THE PLANNING DIRECTOR PURSUANT TO THE PROCEDURES AND STANDARDS SET FORTH IN 155.300(B) BELOW.

(B) USES NOT SPECIFICALLY LISTED

- (1) Any use not specifically listed in this chapter is expressly prohibited, unless the Planning Director determines in accordance with § 155.715, that the use is similar to a use or uses listed in this chapter. Where an unlisted use is similar to a use listed in Table 2-1 (§ 155.202(B)), the unlisted use shall also be subject to the similar uses standards and approval process. The Planning Director shall not amend this chapter by adding to or eliminating any use standard for the unlisted use.
- (2) Where an unlisted use is found by the Planning Director not to be similar to any other use listed in Table 2-1 (§ 155.202(B)), the use shall be permitted only following a text amendment in accordance with § 155.703. The decision of the Planning Director may not be appealed to the Board of Adjustment.
- (3) When considering the appropriate districts for a use not listed in the Use Regulations Table, the district intent statements (see §~~155.200-155.203(A)~~) shall be taken into consideration.
- (4) Determination of an appropriate category for a proposed use not currently listed shall be made by applying the following criteria.
 - (a) The actual or projected characteristics of the activity in relationship to the stated characteristics of each use category.
 - (b) The relative amount of site area or floor space and equipment devoted to the activity.
 - (c) Relative amounts of sales from each activity.
 - (d) The customer type for each activity.
 - (e) The relative number of employees in each activity.
 - (f) Hours of operation.
 - (g) Building and site arrangement.

- (h) Types of vehicles used and their parking requirements.
- (i) The relative number of vehicle trips generated.
- (j) Signs.
- (k) How the use is advertised.
- (l) The likely impact on surrounding properties.
- (m) Whether the activity is likely to be found independent of the other activities on the site.

(C) **DEVELOPMENTS WITH MULTIPLE USES**

- (1) Nonresidential, townhouse, and apartment complexes may be established on a single unified parcel, provided that the following requirements are met. Except as set forth above, no more than one principal building or use may be erected on a single lot of record.
- (2) Development with multiple uses shall meet all applicable development standards as set forth in §§ 155.200 through 155.204, §§ 155.400 through ~~155.405~~155.404 and §§ 155.500 through 155.502. Applicants shall comply with all other provisions in this chapter and all other applicable laws.
- (3) When the principal uses of a development fall within different group of uses or no group of uses, each principal use shall be classified in the applicable group of uses or treated as an individual use and each use shall be subject to all applicable regulations for that group of uses or individual use.
- (4) A development comprised of uses regulated by separate rows on the Use Regulations Table shall be reviewed using the most restrictive process from among the proposed uses. If a proposed development on a single parcel includes a special use review, then the entire development requires special use review.
- (5) Where a use requiring approval as a conditional use or a special use lies on a separate legal parcel, only the building containing the use and its separate parcel shall be subject to review, not the entire project. However, where the separate legal parcel is an outparcel, the application shall describe the relationship of the outparcel to the remaining site.

(Ord. 2005-11-02, passed 11-21-05; Am. Ord. 2006-06-01, passed 6-19-06; Am. Ord. 2007-04-05, passed 4-2-07; Am. Ord. 2012-04-03, passed 4-2-12; Am. Ord. 2012-12-03, passed 12-3-12)

§ 155.301 RESIDENTIAL USE STANDARDS

The following standards shall apply to all permitted uses, conditional uses and special uses, as set forth in the Use Regulations Table (Table 2-1 § 155.202(B)). Additional design considerations may be outlined in the Clayton General Design Guidelines.

(A) ADULT CARE HOME
