BURDEN OF PROOF / EXPLANATION OF REQUEST

Variance(s) Requested: *List each requested variance. Attach additional pages if necessary.*

Code Section: 155.401(C)(2)

Code Requirement: Restaurant Parking - 1 space per 3 seats including outdoor seating area

Variance Sought (*describe specific request*): Allow Crawford Cookshop to utilize 44 existing on-site parking spaces and 4 on-street parking spaces which will be shared by other existing tenants in the building.

Use this section to describe the request. An applicant seeking a variance has the burden of presenting evidence sufficient to allow the Board of Adjustment to reach conclusions for the Required Findings of Fact. Attach additional sheets/pertinent information as necessary.

The proposed project will be located in an existing downtown building with an existing parking lot on-site. The parking lot consists of 44 spaces including 2 handicapped spaces. Based on an estimated 81 seats the parking requirement is 27 spaces. This is a multi-tenant building with a total parking requirement of 79 (21 for existing second floor office and 58 for the other two restaurants that have been approved). Since existing tenants and approved projects already exceed parking capacity no project is possible if parking is required for that use without a variance. The property currently has the maximum number of spaces that can be placed on-site and there is no way to expand or increase the number of spaces.

REQUIRED FINDINGS OF FACT

Section 155.716(F)(2) of the Unified Land Development Code requires applications requesting a Variance to address the following findings. The burden of proof is on the applicant and failure to adequately address the findings may result in denial of the application. Please attach additional pages if necessary.

1. Unnecessary hardship would result from the strict application of the ordinance. It shall not be necessary to demonstrate that, in the absence of the variance, no reasonable use can be made of the property.

As was stated above, in the absence of the variance no use requiring parking can be made of the portion of this building that is currently vacant. The proposed project will be located in an existing building, with existing parking that cannot be expanded and current and approved uses already have exceeded available parking spaces. The Cardinal and Lil Hombre were approved even though the parking requirements exceeded the available on-site parking. We expect customers to utilize other nearby parking such as on-street parking and other public parking areas and we believe this will adequately address the parking shortfall on-site as has been the case with other new downtown establishments.

2. The hardship results from conditions that are peculiar to the property, such as location, size, or topography. Hardships resulting from person circumstances, as well as hardships resulting from conditions that are common to the neighborhood or the general public, may not be the basis for granting a variance..

The proposed project is in an existing building with an existing parking lot that is currently oriented to maximize existing parking spaces. The only way to increase parking on-site would be to build a parking deck, which is not only cost prohibitive for a project of this size, but is also not feasible due to the size of the property. Therefore no additional parking is possible on-site.

3. The hardship did not result from actions taken by the applicant or the property owner. The act of purchasing property with knowledge that circumstances exist that may justify the granting of a variance shall not be regarded as a self-created hardship.

This is an existing building and parking lot and neither the applicant nor the property owner have taken any actions to incur a self-created hardship.

4. The requested variance is consistent with the spirit, purpose, and intent of the ordinance, such that public safety is secured, and substantial justice is achieved.

The requested variance is consistent with the spirit, purpose, and intent of the ordinance. A variance request regarding required parking in the downtown area is commonplace given the general limited availability of existing parking lots in this area and will not jeopardize public safety.

APPLICANT AFFIDAVIT

I/We, the undersigned, do hereby make application and petition to the Board of Adjustment of the Town of Clayton to approve the subject Variance request. I hereby certify that I have full legal right to request such action and that the statements or information made in any paper or plans submitted herewith are true and correct to the best of my knowledge. I understand this application, related material and all attachments become official records of the Planning Department of the Town of Clayton, North Carolina, and will not be returned.

NOTICE

SUBJECT: **Project:** **2021-040-VAR – Crawford Cookhouse – Parking Variance**
Address: **401 East Main Street**
PIN #: **05011016**
Applicant: **113 E First St, LLC**

Dear Clayton Area Property Owner:

Notice is hereby given that the Clayton Board of Adjustment will hold an evidentiary (quasi-judicial) hearing on **Wednesday, May 19, 2021 at 6:00 PM** at Town Hall, 111 E Second Street, to consider the above referenced Parking Variance application. The applicant is requesting a parking variance from Section 155.401(C)(2) – Table 4-2 of the Town of Clayton Unified Development Code. Specifically, Minimum Off-Street Parking Requirement for a Restaurant Use. The subject property is located at 401 East Main Street. Please see the map on the back of this letter.

Based upon records in the Johnston County Tax Office, you are the owner of property that is within 100 feet of this request. You are invited to attend this meeting. During an evidentiary (quasi-judicial) hearing, the Board of Adjustment must make findings of fact based upon sworn testimony and other credible evidence. Citizens may give testimony in an evidentiary (quasi-judicial) hearing after they have taken an oath. This is an open meeting and interested persons are invited to attend.

If you should need additional assistance or information, please contact the Planning Department at (919) 553-5002 or email at jcaines@townofclaytonnc.org.

Sincerely,

Jeff Caines, AICP – Senior Planner

Public Notice

In accordance with NC GS 160D-302, the Clayton Board of Adjustment will conduct the following evidentiary hearing on Wednesday, May 19, 2021 at 6:00 PM in the Town Council Chambers in Town Hall, located at 111 E. Second Street:

- Request for a Parking Variance (File # 2021-40-VAR) from Section 155.401(C)(2) – Table 4-2 of the Town of Clayton Unified Development Code. Specifically, Minimum Off-Street Parking Requirement for a Restaurant Use. The subject property located in the B-1 zoning district; Downtown Overlay District, located at 401 E. Main Street; TAG number 05011016

During an evidentiary hearing, the Planning Board must make findings of fact based upon sworn testimony and other credible evidence. Citizens may give testimony in an evidentiary hearing after they have taken an oath. This is an open meeting and interested persons are invited to attend.

STAFF REPORT

Application Number: 2021-40-VAR
Project Name: Crawford Cookshop

TAG #(s): 05011016
Town Limits/ETJ: Town Limits (B-1 Downtown Overlay District)
Applicant: 113 E First St, LLC
Owner: Robert S. Adams, III
Location: 401 E Main Street
Project Planner: Jeff Caines, AICP – Senior Planner

Public Noticing dates:

- **Sign Posted:** May 7, 2021
- **Newspaper Ad Published:** May 5, 2021 & May 12, 2021
- **Adjacent Property Letters Mailed:** May 7, 2021

REQUEST: The applicant is requesting a variance from the following code section(s):

UDC Section	Requirement	Variance Request
155.401(C) (2) – Table 4-2	Restaurant must meet the parking requirement of 1 space for 3 seats including outdoor seating area.	To allow as much off-street parking as can reasonably be provided, and no foreseeable traffic congestion problems will be created.

SITE DATA:

Acreage: +/- 0.747 Ac (+/- 32,540 square feet)
Existing Use: Existing Building

STAFF ANALYSIS AND COMMENTARY:

The applicant is requesting a Variance to the minimum parking requirement of 1 parking space per every 3 seats, which includes outdoor seating. The proposed restaurant is located inside an existing downtown building which currently has limited off-street parking that can serve this use as well as other businesses inside the building; the applicant has submitted a site plan showing 44 off-street parking spaces. The applicant has also submitted both parking calculations and operating hours for the various businesses located in the building showing the peak times of use,

demonstrating that the same parking space can be used for different uses. Both UDO Section 155.204(5)(b)(3)(B) and UDO Section 155.401(B)(8) state that there may be an allowance for this parking variance so long “as much off-street parking and loading as can reasonably be provided is provided, and no foreseeable traffic congestion problems will be created.” Staff has reviewed the building location as well as the associated off-street adjacent parking lot and has concluded that as much parking that can be reasonably provided has been provided, especially with the documentation of the different parking rations and peak times of the other building tenants.

Findings of Fact:

1. Unnecessary hardship would result from the strict application of the ordinance. It shall not be necessary to demonstrate that, in absence of the variance, no reasonable use can be made of the property.

- **Applicant Response:**

As was stated above, in the absence of the variance no use requiring parking can be made of the portion of this building that is currently vacant. The proposed project will be located in an existing building, with existing parking that cannot be expanded and current and approved uses already have exceeded available parking spaces. The Cardinal and Lil Hombre were approved even though the parking requirements exceeded the available on-site parking. We expect customers to utilize other nearby parking such as on-street parking and other public parking areas and we believe this will adequately address the parking shortfall on-site as has been the case with other new downtown establishments.

- **Staff Commentary:**

By following strict compliance with this parking provision, the applicant would either have to reduce the size of the restaurant or have to construct an additional parking facility or structure. There are already businesses that could share the parking lot adjacent to the restaurant location and not have a negative impact of either business due to the difference of business hours. For example, the office use(s) may operate Monday thru Friday – 8 am to 5 pm while Crawford Cookshop operates Tuesday thru Saturday from 5 pm to 10 pm; thus having non-competing times for the same parking space. Therefore, by having different hours of operation and customers from the local surrounding businesses the amount of parking could be reduced without causing an unnecessary hardship to the applicant.

2. The hardship results from conditions that are peculiar to the property, such as location, size, or topography. Hardships resulting from personal circumstances, as well as hardships resulting from conditions that are common to the neighborhood or the general public, may not be the basis for granting a variance.

- **Applicant Response:**

The proposed project is in an existing building with an existing parking lot that is currently oriented to maximize existing parking spaces. The only way to increase parking on-site would be to build a parking deck, which is not only cost prohibitive for a project of this size, but is also not feasible due to the size of the property. Therefore no additional parking is possible on-site.

- **Staff Commentary:**

The site is located in an older building in the downtown area of Clayton. This building was constructed during a time when different development standards and codes were applicable for different uses. Many businesses in the downtown area have limited or no off-street parking locations. Since a restaurant use is allowed in the downtown area, as a permitted use

in the UDO use table, every effort has been utilized in order to help minimize the parking situation by providing as much off-street parking as reasonably possible.

3. The hardship did not result from actions taken by the applicant or the property owner. The act of purchasing property with knowledge that circumstances exist that may justify the granting of a variance shall not be regarded as a self-created hardship.

- **Applicant Response:**

This is an existing building and parking lot and neither the applicant nor the property owner have taken any actions to incur a self-created hardship.

- **Staff Commentary:**

The site, as state above, is in an existing building located in the downtown area and constructed during a time when different development codes were in place. The applicant did not modify the building or site to make it a non-conforming use.

4. The requested variances are consistent with the spirit, purpose, and intent of the ordinance, such that public safety is secured, and substantial justice is achieved.

- **Applicant Response:**

The requested variance is consistent with the spirit, purpose, and intent of the ordinance. A variance request regarding required parking in the downtown area is commonplace given the general limited availability of existing parking lots in this area and will not jeopardize public safety.

- **Staff Commentary:**

The proposed variance meets the purpose of the UDO by allowing a reduced parking standard in the downtown area by allowing the applicant to place as much parking as reasonably possible.

CONSIDERATIONS:

- The Board of Adjustment shall review and make a final decision regarding Variance applications.
- Per UDC requirements, no variance shall be approved unless all of the Findings of Fact are made.

FINDINGS OF FACT:

The applicant has addressed the Findings of Fact, as outlined above in this report and included as a part of the application.

RECOMMENDED CONDITIONS OF APPROVAL:

No Recommendations of Approval are being requested by staff. If the Board requests recommendations of approval for the parking variance, staff will support those recommendations.
